Fred Kim

fredkimdesign@gmail.com · (714) 975-1607 · fredkim.co

Senior Product Designer with 8+ years leading 0→1 products and platform-scale design systems across retail, tech, and automotive. A B.S. in Mechanical Engineering (USC) underpins a systems-thinking approach that translates complexity into measurable outcomes — including a $316M projected impact initiative and a $4–5M incremental revenue program. Known for influencing roadmaps, growing design talent, and shipping cohesive experiences at scale.

EXPERIENCE

Senior UX Designer · Walmart / Sam's Club

Walmart *Jan 2026 – Present*

Transitioned internally to Walmart's Design Systems team

– Building and scaling a subsystem design system, establishing UI consistency and accelerating development velocity across 3+ product pillars.

Sam's Club *(Subsidiary of Walmart Inc.)* *Apr 2023 – Jan 2026*

– Designed and launched Message Center (app + web), unlocking access to ~1.8M previously unreachable members and projected to deliver $316M in business value through improved engagement and savings visibility.
– Led a 2-day cross-functional marketing automation workshop producing a future-state roadmap expected to drive $4–5M in incremental operating income through improved campaign efficiency and personalization.
– Delivered an Admin Portal for Member's Mark Community enabling structured member feedback loops; foundation for a mobile-optimized Q3 pilot targeting 30% active member growth by Q4 FY26.
– Defined UX vision and led end-to-end delivery for associate-facing tools supporting 1,000+ supply chain employees.

Senior Product Designer · Twitter *Mar 2022 – Jan 2023*

– Overhauled internal developer tooling, improving productivity and workflow efficiency for 2,000+ engineers.
– Redesigned internal search tools, raising the Chrome Developer accessibility score from 72 → 97 — a 35% improvement — directly enhancing usability for thousands of daily users.
– Co-authored data visualization design guidelines with the Design Systems team, elevating consistency and accessibility across internal products.

Senior UX Designer · Tesla *Dec 2020 – Oct 2021*

– Designed features for Tesla OS, the internal enterprise ecosystem supporting sustainable energy operations across global sales, delivery, and service workflows.

– Built a multi-platform messaging application used by 800+ employees, doubling platform usage (400 → 800 active users) across the full customer ownership cycle.
– Created an email campaign management tool improving the effectiveness and reach of global commercial communications.

Product Designer → Lead Product Designer · WANDR Studio *Nov 2019 – Dec 2020*

– Promoted to Lead after one year; directed agile design processes across user research, product strategy, and rapid prototyping for multiple client engagements.
– Translated complex problem spaces into user flows, information architecture, and interaction designs supporting product scalability and market readiness.

Earlier: UX Designer at Geekbears (2019) and Freelance (2018–2019) — responsive web design grounded in user research and iterative prototyping.

VOLUNTEERING

UX Mentor · ADPList *Jul 2025 – Present*

– Career mentorship, portfolio critiques, and competency coaching for aspiring UX professionals.

Youth Mentor · Area Youth Ministry *Jun 2024 – Present*

– Leading youth programs including Sunday services, workshops, and mentorship for students.

EDUCATION

University of Southern California *2011 – 2015*

B.S. Mechanical Engineering · Emphasis: UX Design, 3D Design, Control Systems, Systems Engineering

---

SKILLS

Design

– Figma, Framer, Adobe Creative Suite, Wireframing, Prototyping, Information Architecture, Interaction Design, User Research, Usability Testing, Design Systems, Accessibility (WCAG)

Product

– Product Strategy, 0→1 Development, Cross-functional Leadership, Stakeholder Alignment, Workshop Facilitation, Agile

AI

– Claude, ChatGPT, Adobe, Copilot, Gemini
